☐ **Friend/In Memory of** (Non-member / $ Donation Only*)

**See information about donation options on back*

Note: Dues and Donations are tax deductible to the extent allowed by law. LLA is a 501(c)(3) charitable organization.

Please designate how to apply your additional, optional donation:

$ _____ Lake Host Program: These donations support all aspects our last line of defense to prevent the introduction of milfoil or any other invasive aquatic species.

$ _____ Water Quality: These donations support the study and analysis of all aspects of water quality including but not limited to weekly sampling and testing by the labs at UNH and Acton Wakefield Watersheds Alliance.

$ _____ General Fund: These donations support the many activities of the Association such as the newsletter, postage, boat parade, Lake Host costs not covered by other sources such as designated additional optional donations, tax exempt status fees, insurance costs, PO Box expenses, annual meeting costs, membership costs to the NH Lakes Association, etc. A very important additional use of funds is the establishment and maintenance of a "War Chest" to be used to combat and treat any outbreak of milfoil or any other invasive species should such an outbreak occur. The timing and thoroughness of our action plan response will be critical in determining our chances to eradicate the invasive species.

$ _____ Scholarship Fund: The LLA has had a long tradition in supporting worthy candidates. Our goal is to provide one $1000 scholarship per year. However, if there are sufficient funds and there are additional viable candidates more than one scholarship may be awarded. This fund is the sole source of scholarship funds.

$ _____ Loon Preservation: For those interested in the loons on Lovell Lake, the Association is willing to collect money and annually forward the money collected to the NH Loon Preservation Committee.

$ _____ Friend/In Memory of: Please provide the name: _____
